WETASKIWIN, ALBERTA, THURSDAY, MAY 29, 1924

V. C. French, Publisher

BASEBALL LEAGUE OF RURAL TEAMS IN DISTRICT FORMED

Amateur Ball will be Played and Six Teams have Entered the League. Suitable Trophy will be Presented. Games are to Start on June 1st.

Representatives of the intermediate baseball teams in the district met in the U.F.A. hall on Friday night, May 23rd, and formed a league to be called the Wetaskiwin Amateur Baseball League.

A suitable trophy will be presented to the winning team. An executive committee of three members was appointed to assist the league. The following schedule of games was drawn up:

June 1—Cherry Grove at Battle River.
June 1—Nashville at Verdun.
June 8—Bear's Hill at Cherry Grove.
June 8—Nashville at Battle River.
June 15—Verdun at Bear's Hill.
June 15—Nashville at Cherry Grove.

FERINTOSH TWIN CHILDREN LOST FOR EIGHTEEN HOURS

Ferintosh, May 27.—The twin children, aged five and a half years, of O. Kravik, farmer, living about five miles southwest of Ferintosh, near Red Deer Lake, wandered away from home on Saturday night in the early evening in search of cows and not returning in a reasonable time, the parents started to look for them as the sun had set and the weather was cold and sleety. They continued on at the neighbors for help and the search party worked all night in a cold, sleety driving rain storm and were not successful in finding the small children until the following noon. The children were exposed to the elements in a rough nest of sticks and brush for eighteen hours, and when found were separated by quite a distance. The little girl was so exhausted that she was thought dead at first. The little boy came through better. He was found sleeping on the ground. Last reports indicate they are recovering.

407 METHODISTS MEET IN CALGARY

Calgary, May 26.—Two hundred and seven Methodist ministers have registered as delegates to the Alberta Methodist conference, which opened here Monday afternoon. There are in the neighborhood of two hundred lay delegates, a large number of whom are women. At the time of going to press, the statistics committee, a body consisting of nearly 50 officials of the church, is in session and in another section of the Central Methodist church, where the conference is being held, the statistics committee is also in session.

There are several important items of business to be dealt with at this conference and among the most important is the arranging of the ministers in the different pulpits of the province. An awkward situation has arisen by the calls which have been sent to ministers outside of the Alberta Methodist conference, and the decisions of the stationing committee in these matters is eagerly looked forward to.

It is not considered that the subject of church union will occupy much of the time this week, the majority of the delegates apparently accepting the stand that nothing definite can be done in this regard until the final legislative deals are completed.

MILLET

The annual U.F.A. picnic will be held at the community grounds, Millet on Tuesday June 3rd. There will be sports of all kinds, featuring baseball basketball and races and jumping for boys and girls, for which good prizes will be given. In the evening a dance will be held in Phynon hall, with a five piece orchestra supplying the music. The U.F.A. will serve a lunch on the grounds and a supper at the dance. A hearty welcome is extended to all.

TOWN TOPICS

The firm of Ness & Carlson has dissolved partnership. The business will be continued by Mr. Ness.

There will be a lawn social at the home of E. E. Chandler on Tuesday, June 10, under the auspices of the Win-One Bible Class.

Miss Helen Wallace, of the secretary treasurer's office, Comm. spent the week-end with her parents, Mr. and Mrs. Geo. D. Wallace.

Seeding in this district is almost completed, as many of the farmers finished on Saturday evening last. There is still some green feed to be sown.

Seven families just arrived in the Dominion, appear to have established a record in immigration with 11 adults and 14 children of various ages from 2 to 1 year old.

The members of the Women's Institute, who were appointed to inspect the streets after the cleanup campaign, will be ready to do so during the first week in June.

The Hospital Aid Society will meet in the nurses' sitting room on Monday afternoon, June 2nd, at four o'clock. All interested are invited to attend.

The Willing Workers of the Presbyterian church will hold a tea and food sale in the Sunday school room on Saturday, June 14th, from 3 to 6 o'clock. Everybody is cordially invited.

The Scandinavian Hospital Aid Society will meet at the home of Miss Selma Gallekson on Tuesday afternoon, June 3rd, at 3.30. All interested in this work are cordially invited to attend.

A junior contest in expressive work will be held in the Methodist church on Friday evening, May 30th. Seven contestants will compete for a medal donated by the W.C.T.U. A silver collection will be taken at the door.

Workmen are now busily engaged installing the fixtures in the new Cooke Drug Company premises opposite the Bank of Montreal. The company announces that they will be open for business on Saturday, June 7th.

Mrs. H. J. Montgomery, Mrs. A. R. Dickson and Mrs. Ernest Switzer left Monday morning for Calgary to attend the Women's Institute provincial convention being held there this week. Mrs. Montgomery is convener of the legislation committee.

The committee in charge of the plain sewing for the hospital bazaar are holding a tea and sale of home cooking at the home of Mrs. McFarlane, 120 Dufferin street, on Friday, May 30th. Everybody is invited to attend.

Rev. W. H. Irwin went to Calgary Monday morning to attend the annual conference of the Methodist church, and expects to be absent until June 10th. The lay delegates to the conference from Wetaskiwin is E. H. L. Thomas.

The companions of Mount Royal Chapter, Royal Arch Masons, had an enjoyable time in their lodge room on Thursday evening last, when they entertained a number of companions from Keystone Chapter, Red Deer. The visitors conferred the H.R.A. degree on several candidates.

A junior contest in expression work will be held in the Methodist church on Friday evening, May 30th. Seven contestants will compete for a medal donated by the W. C. T. U. A silver collection will be taken at the door.

Miss Irene Young, of Edmonton, is a visitor with her sister at the Methodist parsonage.

Staff Captain Walter Carruthers of the Salvation Army, who has charge of the Yukon division, spent a few days of the past week renewing acquaintances in the city. At the conclusion of the conference held at Vancouver, he came to Wetaskiwin for the purpose of accompanying his parents, Mr. and Mrs. Wm. Carruthers, to his home in Wrangell, Alaska, and they left on Monday for the trip. They will likely be away from Wetaskiwin a couple of months.

get on a stable footing and proceed with their work, free from uncertainty and strife."

OBITUARY

OSCAR HILDEN PETERSON AND FLORENCE BETTY PETERSON

The sympathy of the entire community is extended to Mr. and Mrs. Peter Peterson of Long Lake district, in the loss of two members of their family on Wednesday of last week.

The baby, Florence Betty, was taken from them at the age of fifteen days, and their son, Oscar Hilden, who was aged sixteen years, succumbed to an operation for appendicitis in a hospital in Edmonton the same day. A joint funeral was held from Moore's Undertaking Parlor on Friday afternoon, services being conducted by Rev. P. M. Meyer and Rev. A. L. Elliott. The interment took place in the Wetaskiwin cemetery.

LAW IS SUBJECT OF KIWANIS ADDRESS

W. H. ODELL, K.C., GIVES CLEAR ACCOUNT OF INSTITUTIONS; BALL GAME POSTPONED

The weekly luncheon of Kiwanis, held on Tuesday evening at the Grand hotel, had been intended this week to be merely the preliminary to a baseball game against the team of the local high school. Fate, however, decreed by sending a heavy rainstorm, that the diamond should not be sufficiently dusty for the pursuit of this noble pastime, consequently the members had to content themselves with the reading of the proposed luncheon for next Tuesday, when the postponed game will take place. Special ambulance arrangements have been made to take care of casualties, and a dressing station will be established close to the front line, under the charge of Dr. Robertson, Sutherland and Hooper. It was also understood that the damaged next week either in the affray or at the luncheon will be removed.

Kiwanian V. C. French, who is shortly to act as ambassador of the local club to Europe, was called on after the luncheon to give a brief account of what he expected to do on his trip, and to promise to be in every way an ideal representative of the club and the city. Kiwanian French suitably responded.

Chairman C. H. Russell then called on Kiwanian W. H. Odell, K.C., for a talk on "Law". Before addressing his subject, the speaker, who spoke at very short notice, remarked that he trusted his fellow members would excuse a dry subject like law, on a wet evening. He proceeded to trace briefly the history of law, saying that the laws under which Canada is governed came to us from England, and that English law is founded on Roman law which survived the downfall of Rome caused by the Goths and Huns, and was kept alive by the clergy in the monasteries of the dark ages. The speaker divided his subject into Civil law and Criminal law, stressing the difference between the two, and the fact that in our courts in cases taken under these sections, and emphasizing the fact that a criminal is considered to be guilty of a crime against the King, that is, against the state. The difference between statute law, or laws made by parliament, and common law, composed of court decision, custom, and scientific treatises on law, was also briefly brought out. International law was also touched upon by the speaker, who remarked that the great hope of mankind is that the League of Nations may prove to be sufficiently strong to enforce its decisions and punish nations which transgress international rights.

In conclusion Kiwanian Odell referred to the various acts under which we are governed in Alberta, and gave a full statement of the courts to enforce the laws which are a necessary part of legal machinery in Canada, and in the case of the Privy Council, in Great Britain. The advantages and disadvantages of the present location of the final court of appeal were also clearly stated. Hearty applause was accorded the speaker.

The meeting closed with "God Save the King."

Don't forget the Golf Dance to be held in the Blue Room on Monday, June 2nd. Tickets, \$1.00.

TOWN TOPICS

Victoria Day was quietly observed in Wetaskiwin. Many of the citizens were busy gardening and cleaning up their premises.

Mr. and Mrs. U. G. Wadel left a few days ago on a motor trip to Oregon. They expect to be away until about the middle of June.

The next meeting of the Peace Hill Chapter, I.O.D.E. will be held at the home of Mrs. E. D. H. Wilkins, on Tuesday, June 10, at eight o'clock.

Mr. and Mrs. Chas. Compton, of Rimby, spent the week-end guests at the home of the former's parents, Mr. and Mrs. E. E. Compton. Mr. Compton is manager of the Bank of Montreal at Rimby.

Mr. and Mrs. Maurice Roy of Edmonton were guests at the Methodist luncheon on the week-end. Mr. Roy assisted the choir during the Sunday services and sang solos which were greatly appreciated.

A. G. Kroetch, who has been the manager of the Revelstoke Sawmill Co. yards here for some years, is leaving Wetaskiwin for the coast in the next few weeks. He is holding an auction of his goods on Saturday, May 31st.

The citizens of Wetaskiwin are reminded of the annual service to be given by the choir of the Methodist church on Sunday evening. Among the soloists for the occasion will be Mrs. Fuller, Mrs. Boyer, Mrs. Walker, Mr. Ross and Mr. Howatt.

Staff Captain Walter Carruthers conducted the service in the Salvation Army barracks on Sunday evening, when a large crowd was in attendance. Walter is another Wetaskiwinite who is making his mark in the world.

This community was visited by a steady rain on Sunday which turned into a soft snow. On Tuesday it again rained for several hours. The Wetaskiwin meteorological observer reports that 275 inches of rain fell during the past week. This moisture is very timely and will give the grain, grass and vegetation generally a good start.

On Wednesday evening, June 11th, Miss Ferguson, of Glasgow, Scotland, who is now touring Canada, will give an address in W.C.T.U. work, in the Presbyterian church. A meeting for boys and girls will be held in the church immediately after school on that day. Miss Ferguson is a speaker of some renown, and a treat is in store for those who hear her. Everybody is invited to the evening meeting.

The editor and wife expect to leave on Saturday of this week to attend the annual convention of the Canadian Weekly Newspapers' Association to be held in Toronto on June 5th, 6th and 7th. After the convention, they will be included in a party of one hundred and fifty newspaper men and women who are making a trip to Belgium, France and the United Kingdom. Reference to the trip is made in another column of this issue. During the absence of the editor, Mr. Maggs will have charge of the office.

FORMER CITIZEN

KILLED BY FALL

The following despatch has been received from Longview, Wash.:

Harry D. Doane, 33, died at 2 o'clock today at the Kelo hospital as a result of injuries received about 11 o'clock this morning while working at the Long-Bell Lumber Company mill site.

Doane sustained a severe fracture of the skull and never regained consciousness from the time of his fall until he died. He was rushed to the Kelo hospital in a Long-Bell ambulance where everything possible was done to save his life.

He is survived by his wife, Della, two children, Alvin, aged 7 and Richard, aged 4, his father and mother, a sister, Ellis Doane of Los Angeles, a sister, James Doane of Beatrice Nebraska, and a brother, Basil, address unknown.

The Doane family home is believed to be at 325 Twenty-fifth avenue, Longview. No funeral arrangements have been completed as yet.

Deceased is a former Wetaskiwinite, and is a son-in-law of Jos. Provost.

WETASKIWIN FAMILY HAS NARROW ESCAPE FROM ACCIDENT

Runaway Team Crashes into Automobile, Doing Considerable Damage. Woman and Child Thrown from Wagon. Nobody Seriously Injured.

What might easily have been a fatal accident, happened on Saturday forenoon last as Mr. and Mrs. E. T. Williamson and family and Miss Redden were on a motor trip to Edmonton. As they were passing through Millet it was noticed that a farm team attached to a wagon and being driven by a woman was unmanageable, and Mr. Williamson showed down the car, ready to give any assistance required. The team soon reached the cart, which was drawn up at the side of the road, when the horses separated, one going on each side of the automobile. Fortunately the tongue of the wagon fell before the car was reached, or the accident would undoubtedly have been more serious. The auto was badly smashed, but the occupants were uninjured. The woman driving the team and a young son were both thrown from the wagon, but were not hurt apart from a laceration to the woman's arm, which was not thought to be serious.

THREE INDIANS REPORTED SLAIN IN LIQUOR FIGHT

St. Paul, Dec. 26.—May 23—Three men were reported dead and a fourth mortally wounded in a shooting at the Saddle Lake Indian Reserve yesterday.

The murderer, whose name could not be ascertained, was reported to be still at large tonight. Although only brief and conflicting reports of the affair could be obtained here tonight, the prevailing rumor was that the victims were chasing a bootlegger, and it is thought that the shooting was the result of a liquor dispute.

An earlier account of the slaying gave only one man, as having been killed and one wounded. It is said that the murdered man was Albert Sinclair, and the wounded man Jas. Poul.

Dr. Gagnon of St. Paul, the coroner, and Sergeant Allen of the Alberta Provincial Police, were called to the reserve this afternoon.

VILLAGE OF EDBERG

WIPED OUT BY FIRE

Edberg, May 26.—The little town of Edberg, on the Edmonton-Calgary line of the C.N.R., 18 miles south of Camrose, was almost wiped out by fire Saturday night, only the smithy, a machine shop and garage being left standing in the business quarter. The damage is estimated at \$50,000. Starting from some unknown origin and fanned by the strong wind, the general store of W. J. Small, Dr. Olson's office, the telephone exchange, an empty building, butcher's shop, restaurant, drug store and post office followed each other in rapid succession, despite heroic efforts of the townspeople to stem the conflagration.

The hotel building was also added to the list of property destroyed, although much of the contents were saved by willing workers before the fire had made sufficient headway to render further salvage work impossible.

NEW ALBERTA COAL PLAN

Toronto, May 27.—Following a conference yesterday between Premier Ferguson and Earl Lawson, G. H. Kilgour, K.C., and Colonel Gordon, Ontario government's representatives in connection with the investigation going on into Alberta coal rates, it was announced that Ontario and Alberta jointly will submit a new proposal to Sir Henry Thornton, president of the Canadian National railways, in an effort to get a lower rate on western coal into Ontario.

The proposal is that two trainloads of the Alberta fuel be sent eastward as a practical and actual test of cost per ton of transportation.

The committee suggested and the premier agreed, that Ontario should pay \$7.40 in freight charges on the shipment and in case the actual cost exceeds \$7 the dominion government should pay the extra amount.

BORN

DYDERG.—At Malmø, on the 22nd inst., to Mr. and Mrs. Mons Dyberg, a son.

SIX MONTHS IN JAIL FOR SALE UNDER NEW ACT

Calgary, May 23.—Six months' imprisonment without the option of a fine was the sentence handed down by Magistrate Sanders yesterday in the case of David Champagne, charged under the new Alberta Liquor act with keeping liquor for sale. He was convicted on four separate charges, arising out of a raid made by local police officers on his place on May 12 and 14, when a considerable quantity of liquor was seized. It was the first case tried before the local magistrate under the new liquor regulations, and Col. Sanders expressed himself very emphatically on the observance of the act in this province, when he imposed the maximum penalty.

GRAIN STEALING CASE

At a court conducted by Police Magistrate A. J. Moore, on Wednesday, May 21st, Elvin DeForest and Thomas Pizay were tried in connection with the stealing of grain from the N. Hawlf elevator. It appears that a neighbor who heard the noise at the elevator about 1.30 a.m. on Wednesday, gave the alarm, and Police Allen and Collins were on the spot in a few minutes, finding a wagon loaded with ten or twelve bushels of wheat also some sacks of oats on the platform. DeForest had hidden in the place before Manager Borgen closed for the night, and later went out and carried off his share. He admits he was responsible for the affair, and had coaxed his friend Pizay to help him. In view of the man's youth and considering his young wife and children, the magistrate dealt leniently with him, imposing a fine of forty dollars. Pizay got ten dollars and costs.—Daysland Press.

WOMEN'S INSTITUTE

The Women's Institute have cancelled the May meeting and will hold the June meeting on Thursday the 12th, when reports will be received from delegates who are attending the convention which is being held in Calgary this week. A cordial invitation is extended to all members and ladies of the city and district who are interested in the W.I.

U. F. A.

The Lone Ridge U.F.A. local will meet on Tuesday next, June 3rd, in the Lone Ridge hall.

The next meeting of the John Knox U.F.A. will be held at the home of Mr. and Mrs. T. Lohi, on Tuesday evening, June 3rd. Everybody welcome.

The next meeting of the Cherry Grove local U.F.A. will be held at the home of Mr. and Mrs. E. Rocknagle, on Tuesday evening, June 10th. Everybody welcome.

Mrs. (Rev.) M. L. Wright won the gold medal for composition in the recent musical festival in Calgary. Her composition was a five part chorus and fugue which she composed for her Musical Bachelor's degree.—Fort Saskatchewan Record.

SUFFERS NO MORE WITH HEADACHES

"Fruit-a-tives" freed her from years of pain

The Fruit Treatment seems to be the only way of completely ridding the system of the cause of Headaches. Miss Annie Ward, of 112 Hazel St., St. John, N.B., says: "I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, but nothing seemed to help me until I tried 'Fruit-a-tives'. After taking several boxes, I was completely relieved and have been well ever since."

Practically all Headaches come from poisoned blood—that is, the blood is laden with impurities which should be carried from the body by the kidneys and bowels.

"Fruit-a-tives"—made from the juices of oranges, apples, figs and prunes—regulate the vital organs of the body—insure a pure blood supply—and completely relieve Headaches, Cuts, and Sores. A box at druggists or Fruit-a-tives Limited, Ottawa.

EXPECT 15,000,000 BUSHELS

Vancouver grain men are of the opinion that at least 15,000,000 bushels of wheat will go through the port of Vancouver this season. The port is now in third place in the list of grain shipping ports of the North American continent, with only Montreal and New York ahead.

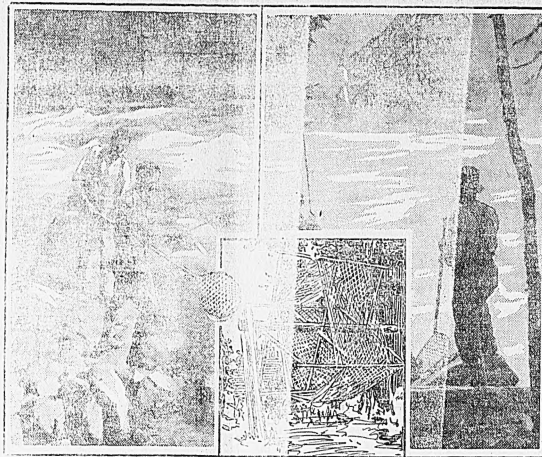

Look at the label on your paper, and see if you haven't stood off your subscription long enough.

THE WRONG JOB

I watched the little mechanic who told around my bus; he showed no signs of panic, he made no grievous fuss. He watched Anne Rooney while she sat in the green, a look that drove me dizzy and unbalanced my peace. Long since I used to doctress of someone with my hand, it made my tender plucker and always got my goat; I labored with a hammer and wrenches round and flat, and then I'd yell and hammer and dance upon my hat. I'd kiss my language better until I'd a way to address appetite that took my health away. But when I came with watching the years go by in flashes, no longer am I bacheling my finger when it batters my peace of mind I cherish far more than peace itself, before I'd use it to get her to dig up dry bones. And so my old little doctor to me and go to more do I get busy with hammer, wrench or screw; I summon the mechanic and say to him: "Come with me, I'm in a bit of a fix, see what the trouble is." And so I am not working my temper to a shred; I miss a lot of sweating, in paths of peace I tread. Far better to pay the plumber to fix your right day clock than toll around all summer and sweat and curs and lurch. I call on Jack the joiner to mend my doors and sills; I send for Cops the cobbler when needing dollar bills. I send for Simms the lawyer when saving should prevail. I send for Lotts the lawyer to keep me out of jail—With Mason.

Have you paid your subscription for 1924? It is due.

THE NET OF NIPIGON

This chain of freshwater, the charm of the net, and the sweet smile of the woods.

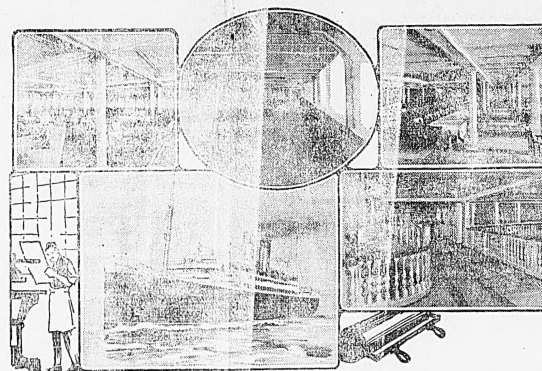

Like some lace veil is this Old . . . Inland . . . Net! You feel you might take it in hand and run it through a finger ring. Compared with it, how crude seems the coarse strength of tanned lengths that is the herring-trap of the Atlantic coast. How rude and strong the thick gawale and heavy timbers, the long bar-sweeps of the fishboats that work the herring nets! These are fine paintings, jealously hung in an inner room, but many of these rare. These others, in the beauty of their strength, are the sculpture in the gallery of Canadian handicraft. There is no question of superiority only an interesting and very entertaining one of difference. Sometimes we are in a mood for the sculpture, for the strength of the sea; and nothing can outlast this hunger when it is upon us, but the way of the Maritime . . . East or West.

But these inland nets that stand for Canadian lakes and rivers, those wonderful water highways, or more brittle paths, and canoe-trails of water, have their own charm . . . the charm of freshwater, the charm of mirror-like surfaces, the charm of the deep peace and the sweet smile of the woods.

What sort of work, someone murmurs, can be accomplished of these toy nets . . . more like feminine draperies than tools of an industry?

The Elgare meshes sound about this old, weathered skeleton of a reel do not purport to be a Blue-Book of the immensely and range of the freshwater fisheries of Canada . . . and they are immense . . . so much as a point-finger of the hundreds of miles of lakes and rivers opened up to sportmen following the beckoning of . . . "the nets of Nipigon."—Victoria Hayward.

Canadian Editors to Visit Flanders Fields

The Canadian Pacific Hotel, London, on which the members of the Canadian Weekly Newspaper Association will call on June 11th. Photographed above are the Canadian, D. Deck, the Salmon and Main Companies.

After the convention of the Canadian Weekly Newspaper Association in Toronto, June 6, 7, and 8, some of the men and women of the newspaper will sail from Montreal on June 11, on the Canadian Pacific liner Melita, for a two-month trip to Belgium, France and the United Kingdom.

The first ports of call are Cherbourg and Southampton, arriving at Antwerp, Saturday June 21. On Monday, the party will be at Brussels, where the Belgian Government will give an official welcome. After visiting important points and the battlefields, the party will be received by King Albert. Three days will be spent in Paris, and some excellent features have been prepared for the party by the Paris newspaper editors and by Bienvenue Francis, of which Marshal Foch is president.

From Sunday, June 29, to Thursday, July 10, will be spent in London, where a great deal of entertainment has been arranged. While in London, the party will be largely under the wing of the Empire Press Union and many social events will be held in their honor, including a visit to the Hemyer regatta, also a "tea" at the House of Commons.

Commons. Arrangements are also under way for a reception at Buckingham Palace by Their Majesties, the King and Queen on Dominion Day.

When the party leaves London on July 10, they will be taken in charge by members of the English Newspaper Society.

The British itinerary is receiving very careful attention at the hands of the British joint committee, and there is every indication that the provincial tour is going to be a continuous succession of civic receptions and private entertainments.

In Scotland, the Trossachs, Loch Lomond, Loch Katrine, the country of Scott, and the land of Burns, as well as Edinburgh and Glasgow will be visited. The Press party will sail from Glasgow on Friday July 25, on the Canadian Pacific liner, "Montaurier." A stop will be made at Belfast, where Sir Robert Baird, head of the Belfast Telegraph, has promised the party a taste of real Irish hospitality. On the evening of Saturday, July 26, the party will sail for Canada, arriving at Quebec, August 4.

EIGHT LIVES LOST;

MOTOR BOAT SANK AT CASCADE, B.C.

Cascade, B.C., May 26.—A total of eight lives were taken in a drowning accident which occurred at Christina Lake, Sunday afternoon, and has cast gloom over the town as practically all were well known.

Axel Carlson, proprietor of the British Columbia hotel, recently purchased a motor boat and had taken a party of his friends out for a trip. The boat had been laid up all winter, and it is presumed that with the heavy load of passengers it started to leak when out in the middle of the lake, and sank under the occupants.

CROPS SAID TO BE

MUCH BENEFITED BY HEAVY RAINS

Calgary, May 26.—Predictions that there would be a good crop in Alberta this year were given basis in fact here today when it was found that the May rains have given impetus to the growth of grain and that at present wheat is several inches high in western parts of the province and the general outlook as good as last year. The soaking rain which was experienced throughout the greater part of the province over the week end has already made beneficial effects, according to the C.P.R. agents reporting to headquarters.

You would not be ashamed of your stationery if it had been printed at The Times office.

GIRLS' CLUB TO MEET AT JASPER

The Women's Institute Girls' Club of Alberta is meeting in convention at Jasper Park, July 2, 3 and 4. This is going to be a most unique convention as it will be the first outdoor convention the club has ever held. Miss Thompson, one of the outstanding women in Canada for girls club work, will be a speaker. The university is sending a man who will accompany the girls on the hikes and explain the geology and the flora of Jasper. Besides the regular convention work which takes place during the morning sessions, there will be automobile trips, hikes, swimming and rowing. In the evening the girls will meet about the camp fires, sing camp songs, telling stories and doing camp stunts. A large attendance is expected as the girls are most enthusiastic over this first "Park convention."

30 DAYS FOR SETTING FIRE

On the charge of infraction of the prairie fire act, in that he set out a fire that burned a half mile of fence and ruined about a section and a half of land, Fred Lowe of Lindsdale, tried before J. D. Bunney, J.P., at Teoford, on Wednesday of last week, was sentenced to thirty days' imprisonment at Port Saskatchewan.

Lowe was a homesteader at Lindsdale, forty miles west of Leduc. He was arrested by Constable R. Marks to whom he finally confessed and later pleaded guilty to the charge.

Constable Marks drove ninety miles with team and about sixty miles with an auto in the course of his work on the case. There have been so many prairie fires this spring that the Alberta Provincial Police are prosecuting such cases with vigor.

She Could Not Sleep She Was So Nervous

Sleeplessness is caused by the nervous system becoming deranged, and to those whose rest is broken by frightful dreams, nightmares, sinking and smothering sensations; to those who wake up in the morning, feeling as tired as when they went to bed, we can offer the old peaceful, undisturbed, refreshing sleep back again, if they will only use Milburn's Heart and Nerve Pills.

These Pills bring the much-needed night's rest back by improving the tone of the nerves and strengthening the heart, and thereby making the whole system work in harmony.

Mrs. W. J. Bryce, Port Arthur, Ont., writes:—"I was so nervous I could not sleep at night. I was troubled with faint and dizzy spells, nervous headaches, would start up in my sleep and scream and jump up, and the least little noise would put my nerves on edge. I went to see my doctor and tried his medicine, but it didn't seem to do me any good. At last I went to the drug store and got a box of Milburn's Heart and Nerve Pills, and when I found they were doing me good I continued their use. I have taken four boxes, and can now lie down and sleep without trouble, and have none of those dizzy and nervous spells. I have certainly found your remedy to be a wonderful one."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. T. Milburn Co., Ltd., Toronto, Ont.

WEST OF THE GREAT LAKES

THE growth of the Bank of Montreal has closely coincided with the gradual development of Canada from a small colony to a great Dominion.

In the Bank's westward advance to the Pacific Coast, one of the important links in its transcontinental chain of Branches was formed in 1898 at Winnipeg, when the Bank opened its first Branch west of the Great Lakes.

This forward step, taken seven years before railway communication was opened up between Montreal and Winnipeg, made available to the incoming population on the prairies the stabilizing co-operation of a strong, conservative and at the same time energetic financial institution.

Of the Bank's 567 Branches, 12 are situated in Winnipeg and 180 in the Prairie Provinces, including Winnipeg.

C.P.R. PUSHING

SUGAR BEETS

IN ALBERTA

Montreal, May 22.—A campaign to demonstrate the possibilities of the sugar beet industry in irrigated tracts of Alberta will be undertaken this summer by the Canadian Pacific railway, it was stated here by C. G. O'malley, vice-president of the development and education department. Seed is to be distributed and expert advice furnished to farmers in the eastern irrigation pilot, in order to demonstrate the commercial possibilities of sugar beet production this summer.

The plots will be one-quarter of an acre, and when the beets are harvested a test will be made of every plot to determine the yield and the sugar content of the beets grown on the farmer's own land. It is thus hoped to show clearly how much profit the owner might expect were he to devote more space to this crop, and give him first-hand knowledge and confidence to start a new industry.

NEW S.S.B. SUPERV-COR

Thos. Dalrymple, of Wetaskiwin, will be acting as field supervisor of the

PROVINCE HAS

DRAINAGE AREA

LAND FOR SALE

Twenty-four hundred acres of good farm land heretofore belonging to the dominion are coming into provincial ownership, whatever may happen to the rest of Alberta's natural resources. Word has just been received from Ottawa that an order-in-council has been passed there dealing with the transfer to the province of that quantity of lands in the drainage districts, for which a nominal price of \$1.00 an acre will be asked.

This piece of news is the outcome of negotiations between the two governments for a considerable time past. It concerns several areas of dominion lands lying within the boundaries of Viking, Holden, Daysland, Dickson and Hay Lakes drainage districts, this land having been in each case, served and improved by the provincial drainage schemes but not heretofore available for settlement.

Soldier's Settlement Board in this district, and will probably reside at Daysland, on account of being unable to get a suitable residence in Sedgewick. Mr. Williams will reside at Wetaskiwin.—Sedgewick Sentinel.

Notice to the Public

The Partnership between E. Carlson and myself having been dissolved, the business is now under my sole management.

I want to take this opportunity to sincerely thank one and all for your kind patronage in the past, and at the same time I wish to express the hope that I may enjoy your business also in the future.

With an increased stock always on hand I hope to be able to supply all your needs at reasonable prices.

I solicit your trade.

Here and There

Shipments of grain from Vancouver for the 1923-24 season have now passed the 41,000,000 bushel mark. Officials estimate that the 50,000,000 bushel mark set for the season will be surpassed in the near future.

Reports from England state that it has been universally conceded that Canada's pavilion was in the best position when the King opened the British Empire Exhibition at Wembley on April 23rd. "It was the Canadian building," the reports said, "spick and span and complete to the last nail that held it all others in the race to the finish in time for to-day's official opening."

Over 3,000 settlers left Liverpool for Canada on April 24th. Thirteen hundred of these sailed on the Canadian Pacific liner "Montreal," including a party of 200 skilled workers from Manchester, 35 belonging to engineering trades, 40 to building trades and 42 farm hands. Highly skilled workers from Leeds and a party of engineers from Liverpool-Furness were also on board.

A total of 40,000 salmon trout eggs has been collected during the last season by the Department of Marine and Fisheries in Lake Huron, Georgian Bay and Lake Superior. The total number obtained compares favorably with the average collections of recent years and is sufficient to fill all the hatcheries on the Great Lakes and engaged in the propagation of salmon trout.

Graphic and interesting educational motion pictures will bring Alberta's various resources to the eyes of those who attend the British Empire Exhibition this year. Illustrating the life of Alberta's citizens on the farms, on the ranches and in the mining districts, the pictures tend to bring out interesting compilations of statistics illustrative of the province's agricultural and industrial output.

Carrying an invitation to the President of the United States to attend the celebrations of the 10th anniversary of the Union of the Upper Canada by the United Empire Loyalists, which will be held in June, Miss G. Langer, herself a descendant of the Loyalists, left Belleville recently on her homeward trip to Washington alone, a distance of 600 miles. Elaborate arrangements for the celebrations are being made and it is expected that thousands of visitors will attend.

An attractive booklet entitled, "A Week in Quebec in the Spring," by Betty Thornley, internationally known writer associated with "Vogue" and other magazines, has just been added to the series of article pamphlets published by the Canadian Pacific Railway. It describes the Ancient Capital and its environs, is illustrated by many striking photographs and bound in a cover which reproduces in natural colors the pattern of cloth ceiling catalogue, woven by Quebec hosiery women.

That the Indian village of Hochelaga, which stood on the site of the present city of Montreal, was a place of about fifty wooden houses having a population of some 4,000 souls when Jacques Cartier sailed up the St. Lawrence, was the assertion made by Dr. W. D. Lighthill before the Antiquarian and Numismatic Society of Montreal recently. Dr. Lighthill was able to give the boundaries of the village and described it as resembling the home of Cedric the Saxon, in "Ivanhoe."

Appropos of the recent "Save the Forest Week," E. W. Beatty, President of the Canadian Pacific Railway, stated: "A week's concentration on saving the forests of Canada is well worth while—much better to make it a 'Forest Saving Year' and, if the forest resources of this country are to be conserved to advantage, the greater Canada of a few years hence it must be a 'Forest Saving Generation.' Forest wastage is today tragically too great and we Canadians must pay and are paying for the loss."

London, May 23.—A number of valuable pure bred sires and mares belonging to the Prince of Wales have been shipped from Liverpool aboard the steamer Gracila en route to the prince's ranch in Canada for breeding purposes.

Calgary, May 27.—There was no indication here last night of any immediate possibility of shattering the deadlock now existing between District 18 of the United Mine Workers of America and the Western Canada Coal Operators' association. Miners in this district have been on strike since April 1 and neither side to the controversy is inclined to make any move in the direction of conciliation or the reopening of negotiations at the present time, officials declared last night.

VICTORIA THE GOOD

On May 24th, we celebrated the birthday of that queen among women, Victoria the Good. Short of stature, she used to stand on a stool to give the desired effect to the draperies of her royal robes in her official photographs, but there was no need of artificial padding to make her character fit for the inspection of the world. And so her empire shows its love and appreciation by remembering her as Victoria the Good.

Sometimes it seems as if there are many today who scoff at the idea of goodness. Success is reckoned so often in terms of dollars and cents, regardless of service rendered to humanity. Yet, deep down in the heart even of the scolder there is a wholesome respect for goodness and its symbols. We have read of an infidel traveller, who, being forced to spend the night in a strange and lonely place, barricaded his bedroom door with the furniture. A few minutes later, when he heard the family ranging the halls and praying for the stranger, he took down the barricade, considering the bible a better protection than the furniture.

Queen Victoria considered the bible was the real strength of the nation, and was not afraid to say so in the admiring phrases who assembled at the golden jubilee. When King William died, and early in the morning a delegation went to her to proclaim her queen, her first words were: "I will be good." The words are easy enough to say, but her long reign surely proved her success in fulfilling the promise.

Many of us are familiar with the large portrait of the Queen with a blue sash fastened at one shoulder, and decorations on her breast. But what a delight it would have been to see her in real life with her family. We are told that her children's home life was simple, and that they were taught to work. "Wise little queen-mother!" It was her great-grandson that was all hearts by his friendliness and his readiness to work on his Alberta ranch year. Simple honest habits and a desire to work are, in fact, pretty sure drawing cards anywhere, and any time. And possibly the scarcity of these things is the greatest lack in the world today. Play fighting without these can never constitute loyalty.

One little incident to illustrate the kindness that helped to make Queen Victoria so great. Once when a quiet, old-fashioned woman was eating at the royal table, she drank her tea from her saucer, at which some of the other guests exchanged knowing glances. Promptly, the queen began drinking from her saucer, and the "glances" had to stop.

The heavy frosts of recent nights have done half a million dollars' worth of damage to the tomato growers of Chatham, Ont. Early potatoes too, will have their growth retarded, and it is feared that the early varieties of peaches will be seriously affected.

UNRESERVED

AUCTION SALE

HORSES, CATTLE, MACHINERY & HOUSEHOLD EFFECTS

The undersigned Auctioneer has received instructions to sell by Public Auction at the S. E. half of 10-45-21, W4th, half mile south and half mile west of New Norway, on

TUESDAY, JUNE 10, 1924

At 1:30 o'clock sharp, the following:
HORSES—Team Brown Mares, 7 years, 2800; Team Black Mares, 7 and 9 yrs, 2600; Team Mare and Gelding, 4 and 6 years, 2400; Pure bred Clyde Mare, 1400; 2 Yearling Fillies; 2 Horse Colts; 2 two-year-old Horse Colts; 2 Spring Colts.

HAIRLESS LITTERS AND POTASSIUM IODIDE

Certain definite abnormalities in pigs such as complete or partial hairlessness, undeveloped horns, blindness, large flabby and unnaturally developed neck and head all arise from the same cause or causes. Pigs so affected usually die although the sow remains normal.

Pregnant sows which are fed a highly nitrogenous ration, given insufficient exercise, and little or no vegetable or mineral matter are usually the heaviest sufferers.

This indicates a deficiency of some necessary element in the ration. Control of the trouble lies in preventive feeding and improved management of the sow. It is imperative that the sow be encouraged to take daily exercise. In so far as it is practical, separate the feed trough, sleeping cabin, and hay rack, or if the sow is housed in a shed or straw stack adjacent to or situated in the barn yard the feeding trough should be placed some distance away so that she has no alternative but to take exercise. Close confinement of the pregnant sow must be carefully avoided.

Brain should always form part of the ration; to this should be added such meals as shorts, screenings, oats or barley supplemented with 5 per cent of tankage and 1 per cent of bone meal. Pulped mangels or boiled turnips and clover hay, preferably alfalfa, are suitable roughages. Minerals in the form of charcoal, earth, soft coal or wood ashes, etc., should always be available for the sows.

If these measures fail, medicinal treatment must be resorted to. Scientific investigation has demonstrated that the addition of iodine in some form to the sow's ration may remedy the trouble. In Eastern Canada where only an occasional litter may be affected, exercise and proper feeds should be successful, but where hairlessness is common, iodine should be administered during the gestation period, or at least for the greater part of it. A solution of one ounce of potassium iodide in a gallon of water may be prepared and when this solution is supplied to the sow in the meal ration at the rate of a tablespoonful per day she gets a daily allowance of about two grains of the drug, which is sufficient. — Experimental Farms Note.

Longbeed, Alta., May 27.—Sixty cents per dozen for crows' eggs is a very encouraging reward from the Aquath Municipality, and the youngsters are not letting the grass grow under their feet while the season lasts, as the councilors who are paying out the bounty are kept busy counting eggs and dimes.

This is the time of the year when the just debts are paid—What about your subscription?

Here and There

Russia has more illiterates, and at the same time, more bookshops than any other country in Europe.

The largest consignment of silk from the Orient for many months, consisting of 5,000 bales, valued at \$90,000, formed part of the cargo of the "Empress of Russia" recently.

A shipment of silk from China, consisting of ten carloads, valued at two million dollars, valued at two million dollars, went forward from Vancouver to New York under special guard over the Canadian Pacific lines recently.

The first of a series of six new seaplanes being constructed for the Canadian Government has just been delivered. The new planes are to be used in forest patrol for the prevention of destruction by fire.

Following the disastrous earthquakes and fires which devastated large areas in Japan, the Canadian Pacific Lines "Empress of Canada" and "Empress of Australia" were thrown open to the accommodation of thousands of refugees, while the officers and men of the vessels did splendid work in organizing and assisting rescue parties.

The rapid increase in the export trade of Saskatchewan during the last year or two, has been the outstanding feature of the Provincial dairy industry. Recently the Saskatchewan Co-operative Creameries made a shipment of 25,000 lbs. of butter to China.

For almost two decades the major portion of the world's supply of cobalt has been derived from the silver-cobalt-nickel arsenides of the Cobalt district, according to figures compiled by the Dominion Bureau of Statistics. The cobalt production of Canada in 1923 was 669,500 pounds, which at \$3.25 a pound, would be worth \$1,822,370.

Canada's trade within the Empire is increasing. For the twelve months ended July, Canada exported to other parts of the Empire goods amounting to \$433,497,899. This is in comparison with \$354,982,674, the figure for the corresponding twelve months previous. Imports from British Empire countries during the twelve months' period ended July, 1923, \$195,811,190; ended July, 1922, \$135,185,581.

A wheat crop of 382,514,000 bushels is forecasted in a report issued by the Dominion Bureau of Statistics. The report is based upon the condition of crops at the end of July, and indicates that the present harvest will produce 397,295,000 bushels of wheat if weather conditions continue favorable. The wheat crop is expected, will have a total wheat yield of 44,468,000 bushels; Saskatchewan 21,155,000 and Alberta 10,776,000 bushels. Alberta is the only province to show an increased yield as compared with 1922.

A party of five journalists, representing the leading newspapers of Switzerland, who recently arrived at Quebec, are the guests in Canada of E. W. Dwyer, President of the Canadian Pacific Railway. They will tour the Dominion in the interests of Swiss colonization. Since will be made at different points where Swiss people are farming, and opportunity will be given to members of the party to converse with them and get first-hand knowledge as to the desirability of Canada as a place for Swiss colonists.

In a letter on "Canada and Land Settlement" published by the Morning Post, Sir Geo. McLaren Brown, European manager of the Canadian Pacific Railway, says that the agricultural salvation of Western Canada lies in mixed farming, which calls for smaller and more numerous agricultural holdings than wheat growing does, and results in closer settlement and better communication. The bigger and more densely settled the rural population, the more social advantages generally, he says.

GENERAL CHANGE in TRAIN SERVICE effective SUNDAY MAY 18th., 1924

MINAKI, THE BEAUTIFUL COUNTRY

THE Indian, with a natural aptitude for conferring upon places names which were appropriate to their setting, called it "Mee-Ne-Kee, the Beautiful Country." The white man who follows in his footsteps, but who enjoys the comforts of Minaki Inn, the splendid hotel operated by the Canadian National Railways, agrees with the Indian's name and his estimate of beauty. For Minaki, because of its beauty and charm of simplicity, is drawing more and more Canadian and American tourists to itself year by year.

Canada is famed for her beauty spots, but none has sweeter charm for the holiday-seeker than has Minaki, situated on a green-clad promontory jutting out into the

Winnipeg River. Natural beauty of woodland, lake and river scenery greet the eye the moment one leaves the Continental Limited, the alotted train of the Canadian National Railways. Starting from Minaki Inn, and at each turn of the woodland trails, there is a new vista of glorious greens, toned by the blue of the Winnipeg River, upon whose wavelets the sun plays. Beyond, with distance gradually shading the colors to a bluish grey, the visitor sees a panorama of timbered hills, which extend to the very shores of Hudson Bay.

By day, Minaki presents to the visitor a glorious succession of blues, greys and greens; in the sunset hour it is a veritable dream; at night, particularly with a moon

shining through the trees, there is a new charm—the charm of resting nature, when, the air laden with the tang of spruce, one rests lazily and hears the ripple of the Winnipeg River against the shores.

Minaki has charms for the holiday maker whether he or she seeks bathing, boating or fishing or just simply beautiful rest. Fish are plentiful, and Minaki is a place where all the big ones do not get away; extended water trips by canoe or motor boat may be had at leisure and there are sandy beaches for the bathers. In addition there are tennis courts, golf course, dancing pavilion, and other attractions, so that no matter what the visitor's tastes may be, there is something to appeal at Minaki.

BOYS ARE ABLE TO

CLEAR THEMSELVES

Three young lads from Wetaskiwin were detained by the south side police on Sunday on suspicion that

they were in possession of a stolen auto. They maintained their innocence and on the car being checked up at Wetaskiwin it was found that it was owned by J. Fenton and had

been lent to his son, who was one of the lads held by the police. They were released and told to return home as soon as the roads were fit to travel on.—Journal.

The Shortest Thing In The World

Isn't a Mosquito's eyelash or a Gnat's whisker, or any part of any insect whatsoever—IT IS THE MEMORY OF THE PUBLIC.

If you doubt this, ask the first dozen men you meet the following questions:

When did the R34 cross the Atlantic? Who was her pilot? What was the name of the ship that blew up and almost wiped out the city of Halifax? What German submarine torpedoed the Lusitania?

It is a safe bet that you would not get one correct answer.

Now do you see the necessity of persistent advertising? When the details of events of world wide importance are so soon forgotten, how do you expect the public to remember you—unless you tell 'em—and keep on telling 'em?

A Word to the Wise

A list of advertisers from THE TIMES in your handbag or pocket is the best "horse shoe" you can carry for "luck" in buying. An advertisement is an invitation.

Thousands Suffer Untold Agony from DYSPEPSIA

All those who suffer from dyspepsia can take our assurance that Burdock Blood Bitters will regulate the stomach, stimulate secretion of the saliva and gastric juice to facilitate digestion, remove acidity, and when this is done you can eat anything you like without any bad after effects.

Mrs. C. Stees, Natick, Ont., writes: "Some time ago I had a very serious attack of dyspepsia, and was also troubled with gas on my stomach. I could hardly eat anything, and very often had pains after meals. I had used different medicines, but they didn't seem to do me any good. At last I happened to run on the track of Burdock Blood Bitters, and after using it for a short time I felt a lot better so I continued its use until now I am completely relieved. Now I am ready to recommend it to anyone troubled as I was."

Edmonton Weekly News Bulletin

Work of District Agriculturists

Interesting features of the work of the district agriculturists are mentioned in the monthly reports of these representatives for the month of April received at the department of Agriculture.

One of the chief features of the reports is the great interest being shown in the pig club work. This particular work is under the supervision of L. T. Chapman, of the department, and is particularly active in the Vegreville, Sedgewick, Olds, Grande Prairie and Sturgeon districts of the central part of the province, and in the Lethbridge district in the south.

M. L. Freng, representative at Lethbridge, speaks of having 52 members for his pig club, and 23 members feeding calves for the baby beef contest at the Lethbridge fair. Mr. Freng also tells of his work in assisting irrigation farmers in the new irrigation district to get under way, and also states that he expects about 6,000 acres will be prepared for sugar beets next year in his territory.

James Murray, representative at Medicine Hat, is concentrating on work in connection with the growing and marketing of corn and sweet clover, and states that several very keen at that point. Holstein calves and beef calves have been bought for the dairy and beef clubs respectively and about 25 grade Yorkshires for the pig club.

A. R. Judson, newly appointed representative at Grande Prairie and Peace River, is also getting the pig club work organized in his territory and will have at least one strong club going this fall.

H. W. Scott at Sedgewick, also speaks of the interest in pig club work, and mentions particularly the success the farmers of his territory have had in the winter feeding of steers, the net profits ranging from \$8 to \$19 a head. Mr. Scott says the creamery at Sedgewick expects to make about 200,000 pounds of butter this season.

All the representatives speak of the growing interest in school fair work in the province.

Alberta Steers for Scotland

A shipment of 250 head of wintered steers, the first of a lot of more than 400 that will be forwarded, left the Edmonton stock yards the past week consigned to a Scottish live stock firm at Glasgow. The steers were all purchased as feeders but fall in the Edmonton district and fed in the stock yards at Edmonton. They comprise some of the highest class beef cattle that have ever left Central Alberta. The firm handling this shipment expects to ship altogether 1,000 head, some of which have been purchased in Southern Alberta. The steers were fed ordinary feed obtainable in the Edmonton district, and have made remarkable gains in weight. They average now about 1100 pounds.

New Zealanders Interested

Members of a committee of New Zealand dairymen who are making a world tour investigating dairying conditions in various countries were visitors to Alberta the past week, and interviewed C. P. Marker, dairy commissioner. They were keenly interested in Alberta dairy conditions.

More Stock for E.P. Ranch
Thoroughbreds for the E.P. ranch will be shipped from England to Alberta this summer following the visit to the old country of W. L. Carlyle, manager of the ranch for the Prince of Wales. Mr. Carlyle made a selection of a number of thoroughbred horses for the ranch.

Prominent Medical Men Coming

World-prominent medical men will be in attendance at the scientific convention to be held under the auspices of the Alberta Medical Association in Edmonton July 2, 3 and 4. Among those present will be Sir John Thompson Walker, of London, England, noted urologist, and Prof. Lyle Cunningham, of Cardiff, Wales, specialist on tuberculosis.

British Capital for Alberta

Negotiations are now going forward in two large deals which are likely to bring a considerable amount of British capital to Alberta for investment. For some time, Scotland, the large milling interests of Britain, have been negotiating for the investment of a large sum in the grain business of the province. This firm has already made an offer for control of the Alberta Flour Mills Company, of Calgary, with a view to completion of the large flour mill now in course of erection there. The firm is also interested in the purchase of a string of elevators throughout the province and is also preparing to erect a large terminal elevator at Vancouver to handle western grain.

The other deal involves extensive Alberta coal properties, and is being

negotiated in behalf of British capital by Capt. Henry Davies, O.B.E., of Cardiff, Wales.

Little Unemployment

Unemployment is less in Alberta at present than at any time in the past few years. At the end of last week only 393 men were registered throughout the province as out of work.

No Mercy for Bootlegger

The first offender under the new liquor law now in effect, arrested in the city of Calgary for bootlegging, was sentenced to a term of six months imprisonment by the magistrate there.

Women's Institute Convention

The annual convention of the Women's Institutes of Alberta will be held in Calgary Wednesday, Thursday and Friday, May 22, 23 and 24. The program this year will be extremely interesting, with several prominent speakers, and the heavier business features of the convention will be followed by items of a lighter and at the same time of an instructive nature. The home economics play "From Danger Valley to Safety Hill" will be given Wednesday afternoon, and on the same afternoon, Prof. Ottewill of the University will give a lecture and motion pictures on "When the one-room school comes into its own."

Thursday afternoon there will be a demonstration on house furnishing at the Hudson's Bay Store. Thursday evening there will be a reception under the auspices of the Local Council of Women of Calgary. Friday morning there will be a demonstration on the making of a kimono dress. On Friday afternoon there will be an address on the League of Nations by Mrs. William Carson.

ROUND-UP ATTRACTS CROWDS

Whispering livestock dealers are being attracted to Alberta for the big round-up of 10,000 wild horses to commence next week. This will be the greatest roundup of stray horses ever held in the province and is expected to gather in the animals that have been ranging the ranges southeast of Calgary for years.

LARGEST SERVICE

OLD WORLD HAS

EVER WITNESSED

London, May 26.—There must have been nearly 125,000 people in Wembley stadium Sunday afternoon to join the king and queen in an Empire Day thanksgiving service.

Amid solid banks of humanity from suburban London and towns near by, there were little patches of natives from all parts of the British Empire. A huge splash of white betokened thousands of surprised choristers, and a thin line of men in blue clothes many of them in invalid chairs, was a grave reminder that the war hospitals were not yet quiet.

Needless to say, their majesties had an almost overpowering procession on their arrival. The proceedings which immediately followed were unmistakably demonstrative of the breadth of the empire, but were so admirably balanced as to exclude any suggestion of flamboyance.

Triumphs of the Household Cavalry heralded the procession. Royal Canadian Mounted Police, who followed their more soberly uniformed brethren of the Metropolitan force, were loudly cheered. The same rousing reception was indeed given to every section of the procession. One phase of war's bitterness was deeply impressed when a line of sightless men from St. Dunstan's marched steadily across the arena.

The service, which as His Grace the Archbishop of Canterbury justly remarked in his address, was a deliberate act, the world has ever seen" was remarkable in its simplicity, and attitude of real reverence as manifested by all who took part. The most arresting moment came when there was silence for a space "for thanking for the empire builders of the past, and for prayer that the empire builders of the present and future may work together to further God's peace on earth."

Pigeon Lake Water Plan Defeated

The Pigeon Lake water scheme, which is being promoted by Frank M. Gray, who proposes to supply the city with water for all requirements from Pigeon Lake, a distance of forty-two miles in a southerly direction, 2.54 definite, turn-down by the Edmonton city council last night, and the original plans to construct an additional sedimentation basin to augment the present purification system will probably be adopted.

Alderman James Findlay, Labor member, proposed to hold up proceedings by securing a complete report on the Pigeon Lake scheme, which would require a considerable time to compile. The move was frustrated by Alderman James East, another Labor member, who led the opposing forces favoring enlarging the present system, and when the vote was taken the only supporters of the proposal to secure a further report were Alderman Findlay and Alderman Joseph Adair.

Alderman A. U. G. Dury, who supported Adair, Findlay's contention that Pigeon Lake would furnish a better water supply than the present system of taking the water from the Saskatchewan river, suggested that the experts who had compiled a report for the Pigeon Lake company, which had been submitted to the Provincial Board of Health, be brought before the council.

In the form of an amendment to the motion to secure a new report the proposal was defeated by a vote five to five.

Commissioner Yorath declared that the preparation of another report on the project, which had already been gone over and reported on by experts years ago, requiring some three months' time, would only result in holding up the bylaw which is to be submitted to the burgesses for another year.

"The commissioners have already applied to the Utilities Commission for permission to construct the additional sedimentation basin at a cost of \$65,000. If we hold up matters now by preparing a report, the bylaw will be held up until next year, and the people will have to contend with an inadequate water system,"

Decided Improvement

Quickly Noticeable

Deco Proves Wonderful Help to Mrs. Scully, Who Feels Very Much Encouraged as a Result.

Mrs. E. M. Scully of 9815 96th Ave., Edmonton, was searching for a good, reliable remedy. She found it in Deco, as the following statement shows.

"For some time I've needed a good reliable medicine. My stomach, kidneys and liver were my chief sources of trouble. Everything I ate would turn to gas. I had pains in my back and stomach and my joints ached from rheumatism. At times it was very difficult to walk up and down stairs.

"Since taking Deco, however, all these symptoms are quickly disappearing and I'm surely glad I tried it."

"I haven't had a rheumatic pain, and my food digests better than it has for years."

"I'm only too glad to recommend Deco to others, as my improvement may lead to helping someone else who has the same troubles. I have only used two bottles of Deco thus far."

Deco is a reliable household remedy endorsed by thousands who have proven its genuine merit. It is compounded from the juices of medicinal herbs, roots, bark, and leaves and it is a wonderful tonic for the whole system. Gives quick relief from indigestion, gastritis, sick headache, lumbago, pains in the limbs, biliousness, constipation and many other ailments. Build up your system with Deco, the proven remedy that contains no mercury, potash, or habit forming drugs. Deco is being specially introduced in Wetaskiwin by Northern Drug Co. Limited, and is sold by a good drug-gist everywhere.

APPEAL DISMISSED

IN PARTRIDGE SUIT

Judgment in one of the several Partridge vs. Aylwin suits before the courts was handed down this week in which the latter wins, the appeal being dismissed with costs.

It was an appeal argued in the appellate division before a full court by J. B. Howatt, K.C., for T. W. Aylwin against a decision given by the district court by Judge Lees in the district court in Wetaskiwin, with A. Knox, responding for Aylwin. The appeal hinged upon the interpretation of the word "forthwith" used in connection with service of notice for a three hours' lien. Judge Lees held that notice served by Partridge, son of the man who was arrested on complaint of Aylwin for theft of grain, had been too late in serving notice. The judge had held that ten days was not "forthwith" or within a reasonable time, and that arrest of the father need not have hindered the legal operations of plaintiff against grain he trespassed for his father and the defendant.

Maori Retains Native Customs

Geographically considered, New Zealand is the Japan of the South Pacific. It has much the same varied configuration, the same abundance of bays and harbors, and like Japan, lies about midway between the tropics and the pole. New Zealand is, too, a land of never fading verdure.

Canadian Pacific officials report that in recent years tourist travel from Canada, and from Europe through Canada to New Zealand has shown a remarkable increase. From

the earliest days of settlement the fame of New Zealand's wonderful scenic attractions has spread abroad and they are now regarded as without equal by their kind in the world. Within the compass of the two main islands are found virgin forests full of remarkable subtropical vegetation with many rare and beautiful flowers; wonderful thermal regions cover a wide area in the centre of the North Island where volcanoes, geysers, boiling springs and countless other manifestations of nature's Titanic hidden forces are manifest. The lakes and fiords of the South Island are of an unimaginable grandeur and magnificence, and the country provides excellent sport for the fisherman or big game hunter, with its trout and salmon filled rivers, and the fine deer herds of the interior.

At Rotarua, on the Northern Island, may be studied many interesting phases of Maori life, for here the Maori still retains most of the old customs and traditions of his storied past, and all through the country one comes upon him peacefully every corner of the world.

What do other eyes see?

Ask and answer this question honestly

Your mirror can tell you what other eyes see—if you will consult it honestly, and honestly accept its judgment.

But you need not fear its verdict. Because unlovely skin need not remain unlovely. The alluring youthful complexion Nature gave you may be yours today.

Millions of women now follow this simple rule to keep the radiance and beauty of schoolgirl complexion. You can, too.

Just this

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful.

But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy foam gently well into the tiny pores. Rinse—and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, and correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild

Volume and efficiency produce 25c quality for

10c

THE PALMOLIVE COMPANY OF CANADA, LIMITED

Winnipeg Toronto Montreal

Palm and olive oils—nothing else—give Nature's green color to Palmolive Soap.

THE FALL LITTERS AND HOG PROFITS

Many western farmers are of the opinion that little or no money is to be made from fall pigs, but the results of three years' experiments at the Dominion experimental farm, Lacombe, show that almost as large profits can be made from fall as from spring litters. In 1921, with high prices for pork, spring litters showed a profit of \$11.05 per pig and fall litters a profit of \$10.30 per pig. In 1922, 54 spring farrowed pigs made a profit of \$4.11 each, while 75 fall farrowed pigs made a profit of \$4.90 each. In 1923 spring-farrowed pigs made a profit of \$5.98 each, and fall-farrowed pigs made \$3.62 each. The last mentioned pigs were sold at \$6.25 per hundred. On the average 4.2 pounds of meal was required to produce a pound of pork with pigs on summer pastures. It costs more to produce pork in the winter, but usually the price in the spring is high enough to more than offset the extra cost.

These pigs were all raised and fed under conditions that can be duplicated on any farm. Four essentials to success with fall litters are, proper breeding and feeding, early farrowing and clean, dry, but not overwarm quarters. Successful winter feeding requires an active hog which will stand feeding in close confinement, as in very cold weather wide range is almost impossible. The Yorkshires are well suited to these conditions, and for three winters have given better results than either the Berkshires or the Duroc Jerseys. The Yorkshires will feed and run around and keep warm, while in cold weather the others will feed, go back to their cubs, and lie down and shiver. For fall litters sows should be bred not later than May 24. The young pigs will then be sufficiently developed to stand cold weather when it comes in November. Fall litters are usually stronger and more even than spring litters, and hairless pigs are almost unknown in the fall. Fall litters must not be overfed. Many pigs are ruined by heavy feeding during the first few weeks after weaning. A hungry pig is usually a healthy, active pig, while an overfed pig is easily crippled and stunted. Fall pigs will winter well in a straw covered shelter, but not over ten or twelve pigs should be allowed in one lot. If the smaller pigs are kept separate from the larger they will do better, and crowding and steaming in the shelter will be avoided.

By raising two litters a year the returns from the sows can be almost doubled, and the year's profits very largely increased. — Experimental Farms Note.

\$1500 TO ASSIST SETTLERS

A new departure is about to be made in the immigration policy of Canada, following an agreement between the Canadian National Railways and the Overseas Settlement Board, under which groups of settlers are to be brought to Canada and settled in communities. Each head of a family will be assisted to the extent of \$1500, in addition to help given in the way of reduced transportation costs to all immigrants under the agreement between the Canadian and British governments.

but thorough cleansing qualities since the days of Cleopatra. And

Be sure you get Palmolive — which is never sold unwrapped. All dealers have it. After even a short period of this treatment you will see a marked improvement in your skin.

Many now use Palmolive for the bath—letting it do for the whole body what it does for the face.

in the Kitchen

Try a small portion of Gillett's Pure Flake Lye in the kitchen when cleaning greasy pots and pans. It will save you much hard labor.

MADE IN CANADA

Here and There

The Canadian Pacific coastwise steamer "Ena" has carried from the seven plants operating on Barclay Sound over 12,000 tons of salt herring since the present season opened in November. This represents almost half the season's output, which will approximate 25,000 tons.

The heaviest immigration to Canada experienced during the last ten years is looked for this year. Already the arrivals are running ahead of those for the same months in 1923, those from European countries being especially large. The enquiries from prospective settlers in the United States are numerous.

Canada exported 6,532 pairs of leather footwear during January, 1924, according to a report of the Bureau of Statistics. Of these 2,179 went to the United States, 2,038 to New Zealand and 2,031 to China and Japan. Bermuda, the Straits Settlements and Newfoundland took the rest. The value was \$21,201.

Canadians imported 5,326,567 pounds of tea last month, or about three-fifths of a pound per head of population. The value of last month's tea imports was \$1,661,176, and for the twelve months ending January 31, the value of the 45,223,129 pounds imported into Canada was \$13,253,612. The bulk of it came from India.

Special trains of immigrants have recently carried lunch counter cars similar to those used in the harvesters' trains last summer. It is understood that the Canadian Pacific have inaugurated this as a feature of all long distance immigrant trains, thus doing away with the necessity of the newcomers providing their own food or using station lunch counters on route.

The completion of plans for the development of hydro-electric power during the current year will add 900,000 h.p. to the present total of 3,228,000 h.p., already installed in Canada. This additional power will be used in British Columbia to assist mining and pulp industries in Manitoba to supply rural areas, and in Ontario for gold-mining and other industries. In Quebec the chief developments are in connection with the pulp and paper industries, and farther east, in the Maritime Provinces, for public utility purposes.

There is every indication that the dearth of the domestic servant in Canada will be greatly relieved in the course of the ensuing few months. Miss Esther Gladys, head of the Woman's branch, Colonization department, Canadian Pacific Railway, London, announces that "Specially conducted parties of domestic servants are being organized under the Empire Settlement Act in conjunction with the Canadian Government for the conveyance to Montreal and to Western Canada."

One of the most attractive features of the Canadian Pacific Railway Company's pavilion at the British Empire Exhibition, Wembley, will be the illuminated exterior panels and the Neon lighting effect, similar to that used at the Coliseum, London, which is wonderfully penetrating and effective under all atmospheric conditions. The interior of the building displays, through working models and magnificent oil and water color paintings, the many ramifications of the great transportation system as well as the natural resources of this country.

According to E. N. Todd, freight traffic manager of the Canadian Pacific Railway the year 1924 will be a banner one as regards foreign capital coming into the country. "During the year 1923 a number of silk manufacturers from England and the United States decided to locate in Canada, and from present indications this particular movement is only in its infancy. At the present time our industrial department is in correspondence with a very large number of manufacturers who are seriously considering locating in Canada."

NEW POLICY FOR CONTROL OF WEEDS

Details of the new policy for the control and eradication of weeds in the province, which was decided upon by Hon. George Hoadley, minister of agriculture, before going overseas, were elaborated at a conference held on May 10, of the new advisory board on weed policy, with Hon. R. G. Reid, acting minister of agriculture, as the chairman. Those present were Earl Cook, M.L.A. for Pincher Creek; W. H. Shields, M.L.A., for Macleod; P. Eusemann, M.L.A. for Alexandria, and W. H. Fairfield, superintendent of the Dominion experimental farm at Lethbridge, together with officials of the department of agriculture.

The new policy as advocated by the minister of agriculture, will emphasize the educational phase of eradication rather than punishment for non-destruction of weeds. Field supervisors have been appointed, who will take the place of the old system of weed inspectors. These supervisors will work in close co-operation with the principals of the agricultural schools, in order that the local conditions of their various districts may be more thoroughly mastered with respect to weed control. They will also, rather than adopt policing methods, work in an advisory capacity to farmers, municipal councils and municipal weed inspectors as to the best methods of cultivation, and weed eradication.

Before commencing their field work the new field supervisors will hold

conference with the agricultural representatives and principals of the new work. It is also the plan that the supervisors shall arrange meetings among the farmers for educational purposes.

The weeds which will be concentrated upon are the perennial sow thistle, Canada thistle, stink weed, blue lotus, wild oats and wild mustard, but attention will be paid in every district to the weed problems peculiar to the district. It is planned to have posters printed, with colored plates of these weeds, for distribution among the rural schools, to municipal councils and other authorities who are interested in the control of these weeds.

The new supervisors will be under the direct supervision of W. J. Stephen, field crops commissioner, who will administer the new policy. The methods of cultivation, crop rotation, etc., will be emphasized at the meetings among farmers.

TOWN TOPICS

A dance will be held by the local G.O. club in the Blue Lantern on Monday next, June 2nd. Good music.

The Young Ladies' Class of the Methodist church are holding a tea and food sale in the Blue Lantern on Thursday afternoon of this week from three to six o'clock.

Mr. and Mrs. Herbert Chandler motored over from Halkirk to spend the weekend with the former's parents, Mr. and Mrs. E. E. Chandler. On account of the heavy rain on Sunday, it was impossible to return by auto, hence Mr. Chandler was obliged to take the train.

Mrs. J. P. Fowler received the sad news on Friday morning that her sister, Mrs. Walsh, had passed away at her home in Vancouver, after a short illness. The remains were being taken to Winnipeg for interment. Mrs. Walsh was visiting at the home of Mrs. Fowler a few years ago, and while here made many friends.

WETASKIWIN LAWN BOWLING CLUB

The Wetaskiwin Lawn Bowling club has been reorganized for the season with the following rink, the first named being in order of play.
J. S. Watson, V. Liveridge, P. T. Kirslein, A. P. Moan.
Dr. McColgan, G. Ionsdale, Jas. Calne, E. T. Williamson.
W. Brown, D. Baker, S. Griffiths, J. R. Marshall.
P. Chidsey, W. Chapman, T. Lawson, C. Smith.

The following games will be played next week:
Monday, June 2nd—
Watson vs Russell.
Gothard vs Fleming.
Wednesday, June 4—
McColgan vs Brown.
Chidsey vs Fleming.
Thursday, June 5—
Brown vs Gothard.
Russell vs McColgan.

BUSINESS LOCALS

***Have you sent The Times special issue to your friends? Copies may be had at The Times' office.

***Mrs. Johnson Said wishes to announce that cabbage and cauliflower plants are now ready for transplanting and she will be able to supply customers for one month. Cabbage plants, 10c dozen, 70c per 100; Cauliflower plants, 2c each. Mail orders given prompt attention. 2c.

***Gus Hay has purchased the shoe repairing outfit of Jas. Klebke, and has moved the same across the street next to telephone building. Take your repair work to him. He promises to give satisfaction. 9c.

ITINERARY FOR PUBLISHERS' TRIP

After the convention of the Canadian Weekly Newspaper Association in Toronto, June 5, 6 and 7, some 150 of the men and women of the association will sail from Montreal on June 11, on the C.P.R. liner Melita, for a two months' trip to Belgium, France and the United Kingdom. Last week, W. Rupert Davies, of the Montreal Mercury, chairman of the arrangements for the trip, met Sir Campbell Stuart, of the London program for the party was completed. Every minute of the eleven days to be spent in Old London will be brimful of interesting things.

The first party of call are Cherbourg and Southampton, arriving at Antwerp on Saturday, June 21. On Monday the party will be at Brussels, where the Belgian government will give an official welcome. After visiting important points and the battlefields, the party will be received by King Albert. From Wednesday to Sunday will be spent in Paris. Some excellent features have been prepared for the party by the Paris news paper editors, and by Bienville Francis, of which Marshall Foch is president.

From Sunday, June 23, to Thursday, July 10, will be spent in London, where a great deal of entertainment has been arranged. While in London the party will be largely under the wing of the Empire Press Union and many social events will be held in their honor, including a visit to the House of Lords, also a "tea" at the house of commons. Arrangements are also under way for a reception at Buckingham Palace by their Majesties the King and Queen, on Dominion Day.

When the party leaves London on July 10, they will be taken in charge by the members of the English Newspaper Society.

The British itinerary is receiving very careful attention at the hands of the British joint committee, and there is every indication that the provincial tour is going to be a continuous succession of civic receptions and private entertainments. New places it is proposed to visit include Torquay, a seaside resort in "Beautiful Devonshire," the wonderful old city of Bath, the busy town of Stockport, as well as other interesting places. At Stockport, a newspaper conference will be held. While it is in session, the ladies will be entertained separately. In Scotland, the Trustees, Loch Lomond, Loch Katrine, the country of Scott, and the land of Burns, as well as Edinburgh and Glasgow, will be visited. The press party will sail from Glasgow on Friday July 25, on the Canadian Pacific liner "Montreal." A stop will be made at Belfast where Sir Robert Balfour, head of the Belfast Telegraph, has promised the party a taste of real Irish hospitality. On the evening of Saturday, July 26, the party will sail for Canada, arriving at Quebec, August 4.

LECTURE ON SOIL OR FIELD CROPS

P. S. Grisdale, principal of the Olds Agricultural school, will deliver addresses at Waterlool on Thursday, June 5th at eight o'clock, and at Malmo on Friday, June 6th, at eight p.m. on the subject "Soil or Field Crops." A motion picture entertainment will be given at the close of both addresses. The public is cordially invited to these meetings, as the addresses will be very interesting and educational. No admission charge.

It is understood that contractors accounting for between 6,000 and 7,000 acres have been received at the head office of the Alberta Wheat Pool. The acreage under contract to the pool has been increased by approximately 50,000 acres by means of the membership drive which was begun this year. The pool is now credited with a contract acreage of 2,458,798 acres.

Here and There

The annual statement of the Canadian Pacific Railway for the year ending May 31, 1924, report which the company's president, W. F. R. Beatty, made to the shareholders at the annual meeting, are matters of first interest, not only to the fast growing number of Canadian citizens who are part owners in the great railway, but to all interested in Canadian progress and development. By reason of the way in which the company's operations touch all phases of Canadian life and enterprise there can be no pronounced depression or prosperity in any part of the country without its being reflected in the earnings of the Canadian Pacific. There is a barometer of the country's foreign trade also in the company's operations. The company's steamships upon the Atlantic and Pacific oceans.

Thus there was movement of grain greater by \$10,000,000 than those of 1923. Working expenses, however, increased by \$7,000,000 to \$18,348,075. This large increase in operating costs was due to large expenditures made upon the property in order that it might be kept to the highest possible physical standard and capable of rendering the best possible service to the community. As a result the property was never so excellent a company as it is now. Net earnings for the year were \$37,470,010, an increase of \$1,770,000.

The total tonnage moved by the company during the year was 20,852,994, an increase over that of the previous year of 3,108,408, or about a heavier movement of lumber, manufactured articles and general merchandise, the largest increase being in grain and grain products. Mr. Beatty pointed out that this satisfactory condition had extended well into the present year and that due to favorable operating conditions and heavy traffic net earnings for the first quarter of 1924 had increased over those of the same period last year by \$1,553,814. Referring to the Government system of railroad, Mr. Beatty said that the difference between it and the Canadian Pacific was largely in name only and in the accident of personnel of shareholders. The securities of both systems were owned by private investors throughout the world and there was a significant steady increase in both Canadian and British holdings of Canadian Pacific common stock. Two phases of the general railway situation called for criticism. Under a statute passed in 1919 the Government-owned lines may construct branches without approval as to location and other details by the Railway Commission. Thus they may parallel or duplicate existing lines of any other company once the Minister approves and parliament authorizes the expenditure. Mr. Beatty stated that in his opinion it was equally in the interests of the Canadian people and of all Canadian railroads that the companies should be in the same position in this respect. The other phase was the result of the Crow's Nest Pass agreement of 1907. It had established special statutory freight rates which no extension of operating costs which no longer exist and differences in rates which might be permitted under the general Railway Act because of their unfairness in relation to commodity rates of other articles and to the rates effective in other parts of Canada. The general principle of shippers as a whole would be secured if all rates were made subject to review and change on conditions warranting the tribunal constituted for that purpose.

In referring to "an outlook for the future," Mr. Beatty said that while there was a noticeable fall in domestic and export shipments due in part to unemployment in industrial districts, general business during the first quarter of the year had been satisfactory. The crop acreage would probably be about the same as last year and, generally speaking, soil conditions were excellent. "If the total yield approaches that of 1923," said Mr. Beatty, "there will undoubtedly be a very extensive autumn business and a vastly improved psychological and financial situation throughout the whole country. There is no real ground for pessimism in respect of the future of either the company or the country, though an extraordinary and too rapid advance is neither to be expected nor desired."

Look at Your Label

The Times wishes to draw the attention of subscribers to the label on their paper.

By examining this label you will find your name on one side and on the other the month and year when your subscription is payable again. This means that you can tell at a glance whether, in order to keep your paper paid up in advance—which saves you Fifty Cents per year—you will need to send The Times \$2.00. We do not wish to strike anyone off the list, if you are struck off it will be your fault, not ours.

Examine your label on the paper now and see if you are in arrears on your subscription!

CHURCH CHIMES

UNITED CHURCH, MILLET

Rev. Percy Johnson, Pastor
Sunday, June 1—
Larch Tree—Sunday school, 10.30
Hillsdale—Sunday school, 2 p.m.
Millet—Sunday school, 11 a.m.

A recent law makes it unlawful for a service man to wear military clothing except on special occasions or with the permission of the military authorities, and already convictions have been registered against some who ignored the new regulation.

FRESH FISH

Now arriving from Vancouver in perfect condition every Monday and Thursday—Salmon, Halibut, Cod-Fish, Soles, Herring, etc.

Special for Saturday

Bacon, side or back, whole or half, per lb .. 22c
Pure Raspberry Jam, 4 lb tin 75c

ROYAL MARKET

CITY ASSESSMENT NOTICES MAILED

The assessment notices for the city business tax are being mailed, and the city treasurer and his assistant are now ready to receive returns. It is hoped the business tax and service tax notices will receive a ready response, as every dollar paid into the city office at the present time will assist the city financially and will materially assist in keeping the loans at the bank down to a minimum. If bank interest is saved, the year's expenses will be less and the general mill rate for the year will be considerably reduced. Wherever it is found possible to make early payment this will go far to making conditions easier for everybody.

COAST TRADE BOARD TO STAGE EXCURSION

The Vancouver board of trade has arranged an excursion to the prairie provinces for some time this summer. Alberta and Saskatchewan will be visited for certain, and it is thought possible that the tour may be extended as far east as Winnipeg. At present the itinerary includes Edmonton, North Battleford, Saskatoon, Regina, Brandon, Portage la Prairie, Winnipeg, Swift Current, Lethbridge and Calgary.

SETTLERS FROM DENMARK

"Despite the fact that the Danish government looks with disfavor upon the exodus of its subjects from Denmark to other countries, nevertheless there is every likelihood that there will be a large influx of first class Danish farmers to Canada during the present season of immigration," stated Mrs. T. Gold, of Aalestrup, Denmark, who arrived at Quebec recently in charge of a party of 40 Danish farmers and domestics.

BAILEY'S DUROCS

Weight 800 lbs, raised by J. W. Bailey & Sons.
"Bailey's Durocs" the Best in Canada,
"They Grow Fastest on Least Feed"
Won about 2,000 Prizes
